ALLOWANCE

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview between Brian P. O'Shaughnessy and Frances P. Oropeza on 9/29/08.

Claims 159, 160, 161, 162 and 265 have been amended. The claims as amended are provided, and portions of the claims that have been deleted and inserted are highlighted after the amended claim.

Relative to claim 159: --The method of claim 245, wherein said command instruction instructs delivery of a first therapeutic agent.--

("process as recited in", "131", "exporting of said at least one" and "the" have been deleted, and --method of-- and --245-- have been inserted)

Relative to claim 160: --The method of claim 159, wherein said first therapeutic agent is selected from the group consisting of anti-inflammatory agents, gene therapy agents, gene transfer agents, stem cells, chemo-attractants, cell regeneration agents, ventricular remodeling agents, anti-infection agents, tumor suppressants, tissue and/or cell engineering agents, imaging contrast agents, tissue staining agents, nutrients, and mixtures thereof.—

(“**process as recited in**” has been deleted, and “**method of**” has been inserted)

Relative to claim 161: --The method of claim 245, wherein said command instruction instructs delivery of a first regenerative agent.—

(“**process as recited in**”, “**131**”, “**exporting of said at least one**” and “**the**” have been deleted, and --**method of**-- and --**245**-- have been inserted)

Relative to claim 162: The method of claim 161, wherein said first regenerative agent is selected from the group consisting of tissue scaffold materials, biochemical materials, stem cells, and electrical stimulation.

(“**process as recited in**” has been deleted, and “**method of**” has been inserted)

Relative to claim 265: --A method of treating a patient requiring heart function assistance or therapy comprising:

- 1) connecting the patient to a cardiac assist device, said device comprising:
 - a) a cup having a compliant exterior wall joined to a compliant interior rolling diaphragm liner continuously along two circumferential lines forming a continuous annular cavity between said wall and said liner, wherein the liner comprises a tapered unbonded transition section reducing in thickness to a thin section, said cup configured to encompass, and to seal and conform to said heart from apex to atrio-ventricular groove throughout systolic and diastolic actuation by imposing negative pressure between said cup and said heart; and
 - b) a drive system in closed fluid communication with said cavity to effect displacement of said cavity;
 - c) a sensor; and

- d) a control system in communication with said drive system and with said sensor;
 - 2) collecting data from said sensor and importing said data into said control system;
 - 3) using an algorithm to formulate a command instruction from said control system in response to said data; and
 - 4) exporting said command instruction from said controller to said drive system to effect displacement of said annular cavity, and wherein said displacement actively supports systolic and diastolic actuation of the heart.
- (in 1) a) **--wherein the liner comprises a tapered unbonded transition section reducing in thickness to a thin section--**, and **--throughout systolic and diastolic actuation by imposing negative pressure between said cup and said heart--** have been inserted)

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fran Oropeza whose telephone number is (571) 272-4953. Fran's schedule is Monday and Tuesday 9AM-7PM EST. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carl. H. Layno can be reached on (571) 272-4949. Carl's schedule is Monday, Wednesday, Friday 9AM-5 PM EST; Tuesday, Thursday 9AM-3PM and 9PM-11PM EST. The fax phone numbers for the organization where this application or proceeding is assigned is (571) 273-8300 for regular communication and for After Final communications.
